

Driver Management System

A Smarter Way of Managing and Monitoring MVRs

American Driving Records (ADR) applies its expertise gained in providing risk mitigating screening and driving record services to nearly 6,000 employers (including 3,700 DOT regulated private transportation companies) to offer you a tool to automate the ordering of driving records (MVR).

■ FEATURES YOU NEED

Historically, the logistics around scheduled ordering and MVR monitoring has been labor intensive. Now with ADR's DMS, you can electronically manage your lists of drivers and order driving records when you need to:

- ▶ Automated notifications help you immediately see where you need to take action with the DMS web-based software's easy-to-read dashboard.
- ▶ Manage Driver Lists more flexibly than ever.
- ▶ Schedule the ordering of MVRs as you need them based on your criteria, such as state, division or cost center.
- ▶ Quickly and easily assign administrative rights within and across your organization.

■ ADVANTAGES YOU EXPECT

Companies find that more frequent reviews of their employee's driving records or Driver Monitoring where available, increases driver safety, resulting in an overall reduction of risk and decreases both hard and soft costs. In addition, DMS provide advantages that:

- ▶ Support your company decision process in identification and disposition of high-risk drivers.
- ▶ Provide your company with the information and tools necessary to reduce the risk of 'Negligent Entrustment' and meet state and federal requirements.

For over 25 years, American Driving Records has been a leading provider of driving records, processing millions of transactions every year for our customers. Today, ADR can do even more to help you reduce risk and improve business performance—providing fast, reliable access to DMV records from all 50 states, as well as Washington DC, Puerto Rico, the Virgin Islands, and Canada.

SCHEDULED ORDERING ADVANTAGES

- Eliminate manual processes
- Reduce risk
- Manage by exception

Vehicle Record Inquiry

Solutions for the Insurance Industry

Insurance companies know the advantage of running a DMV printout under conditions of theft or total loss—it provides needed information to help protect against fraud or inaccurate refunds required by the California Department of Insurance (DOI).

American Driving Records (ADR) now updates a well-known industry product; integrating standard online features with advanced capabilities, competitive pricing, and comprehensive product support. With ADR, you have the tools to lower costs, maximize opportunities and simplify daily operations.

■ INDUSTRY LEADING ENHANCED FEATURES

Passwords can be conveniently reset online 24/7, without the need to contact technical support. Users can also be added or removed online, along with adding or restoring workstations. Printing transaction logs are also under your control, as transaction log records are maintained online for two full years providing access when you need it. Altogether we provide over 20 new features for enhanced product use, including simplified processes for multiple account management and mandatory annual re-certifications.

■ INTEGRATES WITH ELECTRONIC VEHICLE REGISTRATION

Vehicle Record Inquiry is integrated into a standardized web-based platform featuring other systems, such as Electronic Vehicle Registration (EVR). Approved users (EVR requires separate DMV approval) can easily access the EVR system to process new vehicle registrations, title transfers or full year registration renewals. Authorized EVR/VRI users can share common passwords to streamline operation of both systems. Approved users can also access and process on multiple accounts without logging out or changing passwords.

FEATURES

- ▶ Currently available for Ohio, Minnesota, Missouri and Tennessee
- ▶ Violation & Conviction history - including conviction dates and descriptions
- ▶ License details and administrative actions - including date issued, expiration, current status, suspensions, revocations and sanctions
- ▶ Standardized violation codes that support ADR custom scoring
- ▶ Accident history
- ▶ Essential driver demographic information

BENEFITS

- ▶ Reduced risk from title fraud and error
- ▶ Fewer screens for faster processing
- ▶ Easily distributed for business wide use
- ▶ Shared platform with other services
- ▶ Improves staff productivity
- ▶ Highly cost-effective

How to access VRs and Instant VRs through WebMVR

With WebMVR, you have the ability to access VRs for 47 states and Instant VRs for Arizona, California*, Florida, Louisiana, New Mexico, New York, Tennessee, Texas, and Washington.**

■ FOLLOW THE STEPS BELOW TO ACCESS VRS FROM WEBMVR

1. Click on this link to go to www.WebMVR.com and log in using your Account ID, User ID and Password.
2. Click on "New Order" in the left side menu bar.
3. On the order entry page, select the state from which you would like to order a VR.
4. Under "Order Type" select 'VR'.
5. Select a VR product from the "Product" select box. If a VR product is not designated "Instant" or "Overnight," the search may take several days to several weeks depending on the turnaround times available from the provider.

*The State of California requires a Commercial Requester Code to access California VRs. You can go directly to the Commercial Requester Accounts Form page on the on the CA DMV website to get started: www.dmv.ca.gov/forms/cra/inf1133.htm.

** A claim number is a mandatory search requirement to order WA Instant VRs.

For more information on obtaining a CA Requester Code, please contact our knowledgeable and helpful support staff to get you started. Contact (800) 766-6877, or email support@mvr.com.

■ HOW TO ACCESS VRS AND INSTANT VRS USING XML, FTP OR OTHER METHODS

If you're a current customer, please contact ADR support at (800) 766-6877, or email support@mvr.com.
